

Carving Club at the Ney Nature Center
Update effective November 16th, 2018

Under the previous policy, Carving Club participants paid a per project fee and were then able to attend any Carving Club session throughout the year. To streamline the process for staff and for our volunteer facilitator, a new policy will take effect immediately for new participants. Participants still under the previous policy will have four months (until February 24th, 2019) to either finish their projects or begin registering under the new policy.

Under the new policy, participants will need to register online one week in advance for new participants or two days in advance for returning participants. Registration will be online at neycenter.org and will cost \$3 per member or \$5 per non-member per session.
