It's Field Trip Season!

Program Spotlight

○○○○

As it always has, spring has brought on all of its wonders like budding trees and nesting Bluebirds. This year, it has even surprised us with 90 degree days and only a few rain showers. As sudden and unpredictable as spring can be, there's always one thing that remains the same at Ney this time of year. It's field trip season!

So far this spring we have welcomed nearly 600 field trip students (and counting) to our park. During our time together, we learn about our pond, how to stay safe in the wilderness, how to shoot an arrow, and how to identify some of Minnesota's great mammals and pollinators. It is always so much fun to spend the day outside encouraging students to be curious and explore the world around them.

Thank you for donating to make experiences like these possible! It is because of you that we are able to inspire appreciation and respect for nature throughout our shared community.
